FIELD NOTES  
OF THE  
DEPENDENT RESURVEY

OF

A PORTION OF THE NORTH BOUNDARY

AND A PORTION OF THE SUBDIVISIONAL LINES,

THE SUBDIVISION OF SECTION 4,

AND

THE METES AND BOUNDS SURVEY IN SECTION 4,

TOWNSHIP 39 NORTH, RANGE 7 EAST,

Of the Gila and Salt River Meridian,  
In the State of Arizona

EXECUTED BY

William P. Carpender

Cadastral Surveyor

Under Special Instructions dated and approved June 5, 1997, which provided for the surveys included under Group Number 815, and assignment instructions dated June 5, 1997.

Survey Commenced June 9, 1997

Survey Completed June 16, 1997

## CHAINS

The following field notes describe the dependent resurvey of a portion of the north boundary and a portion of the subdivisional lines, the subdivision of section 4, and the metes and bounds survey in section 4, Township 39 North, Range 7 East, Gila and Salt River Meridian, Arizona.

The north boundary was surveyed by William E. Hlester and Otis O. Gould, in 1926-27. The subdivisional lines were surveyed by Karl L. Siebecker, in 1930.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated June 5, 1997, for Group No. 815, Arizona.

Preliminary to the resurvey, the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The directions of all lines were determined by direct hour angle observations on the sun, confirmed by reference to the National Geodetic Survey triangulation network, and refer to the true meridian. Distances and angles were measured with a Sokkia SET2BII total station instrument.

The geographic position of the corner of sections 3, 4, 33, and 34, on the north boundary of the Township, as determined from a direct tie to U.S. Coast and Geodetic Survey triangulation station "MARBLE CANYON 1947", is as follows:

Latitude: 36°48'53.90" N. Longitude: 111°38'28.34" W. NAD83(1992)

The mean magnetic declination, as taken from quadrangle map NAVAJO BRIDGE, ARIZONA, Provisional Edition, published in 1985 by U.S. Geological Survey, is 13 1/2° East.

The Marble Canyon Lodge is immediately east of the project area, providing a motel, restaurant, store and gasoline station. Access is provided by U.S. Highway 89A and the Marble Canyon Lodge landing strip.</p> <p>Most of the terrain is gently rolling, open desert. The Colorado River gorge crosses the southeast 1/4, and the Seven Mile Draw gorge crosses the southwest 1/4 of section 4. The average elevation is approximately 3600 feet above sea level.</p> <p>The mean magnetic declination is 13 1/2° E., as taken from quadrangle map NAVAJO BRIDGE, ARIZONA, Provisional Edition, published in 1985 by U.S. Geological Survey.</p>

## FIELD ASSISTANTS

[illegible]

I, William P. Carpenter, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 5th day of June, 1997, I have dependently resurveyed a portion of the north boundary and a portion of the subdivisional lines, subdivided section 4, and executed a metes and bounds survey in section 4, Township 39 North, Range 7 East, of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

William P. Carpenter  
(Cadastral Surveyor)

BUREAU OF LAND MANAGEMENT  
Arizona State Office  
Phoenix, Arizona

The foregoing field notes of the dependent resurvey of a portion of the north boundary and a portion of the subdivisional lines, the subdivision of section 4, and the metes and bounds survey in section 4, Township 39 North, Range 7 East, Gila and Salt River Meridian, Arizona, executed by William P. Carpender, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

Kenny D. Ravmbar  
(Chief Cadastral Surveyor of Arizona)

I CERTIFY that the foregoing transcript of the field notes of the above-described surveys in T. 39 N., R. 7 E., Gila and Salt River Meridian, Arizona, is a true copy of the original field notes.

(Chief Cadastral Surveyor of Arizona)
